INTRODUCTION

Investing in Precious Metals

01

Precious metals are an important addition to any investors portfolio who is looking to hold physical assets, preserve their wealth and maintain a conservative portfolio.

02

Overtime, precious metals have maintained their value through times of economic uncertainty. Preserving wealth as inflation rates increased and investors lost faith in paper currencies & other asset classes.

03

Overall, precious metals have a low/negative correlation to other asset classes, reducing the vitality and risk of an investor's portfolio.

04

Precious metals include Silver & Gold in our registered accounts.

CONTINUED

Investing in Precious Metals

05

High Demand

Increasing demand for physical gold among investors, hedge funds and institutions such as governments & central banks.

06

Hedge Against Inflation

Both gold and silver can increase your purchasing power overtime, especially as inflation rates increase and currencies depreciate.

07

Security

Physical bullion, unlike paper investments, are physically held in your possession. Providing you with full control over your investment outside of the banking system.

08

Central banks around the world hold vast amounts of gold within their vaults. Due to gold's high liquidity & safety, it allows central banks to preserve capital, diversify portfolios and mitigate risks.

Advantages

4

Physical Bullion

Your account holds the exact physical bullion you invested in.

1

Instant Liquidity

All registered bullion investments can be sold back to us with the proceeds returned to your account quickly.

3

Fully Insured Storage

Your physical gold and silver is insured by both Brinks Canada and Questrade, with additional account protection provided by CIPF (Canadian Investor Protection Fund).

Rapid Delivery

If you decide to de-register your funds and take physical possession of your bullion it can be quickly shipped to you directly from the Brinks storage facility.

4

Getting Started

7

01

Open an account online or through the phone with Questrade and create an account with Silver Gold Bull. There are no fees to open accounts with either of our companies.

02

Fund your Questrade account & complete the Dealer Authorization Form. The DAF form allows us to make purchases into your account.

03

Give our RSP team a call with your Silver Gold Bull account number ready.

04

Discuss your metal options, prices and make your purchase.

05

You will receive an order confirmation at the time of purchase and it will reflect in your Questrade account within 1-2 business days. Your metals will then be sent into secured storage in Brinks, Calgary.
